Queen.—This is the very coinage of your brain. Hamlet.—Mother, for love of grace, lay not that flattering unction to your soul, that not your trespass, but my mad-

ness speaks.
—Hamlet, Act iii., Scene 4. Covington Commonwealth.

There are a few friends of Senator Goebel who are endeavoring to make the plea that it is not so much the trespass of our distinguished fellow-citizen we have been advertising of late as it has been a species of madness on the part of The Commonwealth. Justice deprejudice against the Senator, but we disclaim and his record as a public official. We wish to named. those who would defend him to say if we have not had method in our madness. The truth Captain Andy Sphar will be ready in injures no one and no amount of misrepresentation can destroy a character that is up held by truth and justice. If what we have heretofore said of Senator Goebel, or may

will be to us and not to him.

In judging of his record as a public official you must necessarily bear in mind his characteristics as a man. As a man, he is regarded by those who know him as ill-mannered, illtempered, conceited, selfish, revengeful and inordinately prejudiced. We presume there is hardly one of his most intimate friends who will take issue with us on either one of those points of character. With these facts in view let us reconnoiter the field and see what may be developed. From the position we occupy it is difficult to conceive of anyone more completely unfitted by nature for the responsible duties of a legislator than the subject of this sketch. That he is ill-mannered and ill-tem pered we will call as witnesses the number of his fellow-citizens whom he passes daily on our streets without recognizing, simply because they have opposed some of his personal or political schemes. That he is conceited we will call as witnesses everyone who has ever attempted to give him advice in any form That he is selfish we will call as witnesses nearly all of his public acts, as well as the unfortunate cripples he has assisted in getting judgment against corporations for injuries reeived in their service and then retained one half of the proceeds of that judgment for his fees in the case. That he is revengeful we advocated or had passed, with no rational explanation for them save that of his malignant desire to punish an enemy. That he is inordinately prejudiced we will call as witnesses the acts he has passed sacrificing the interests of his constituents, with the only apparent object of rewarding a henchman for obsequious ser-

Napoleon Bonaparte once said that if you ould scratch a Russian you would always find a Tartar right underpeath the skin. So it is with the legislative acts of William Goebel. Scratch any of them and you are pretty certain to find something sinister right underneath.

We will commence with the bill for the reion of tolls upon the Suspension Bridg He has gained some popularity among the laboring people for this stroke in their behalf. Do his general characteristics warrant | 8 law? the belief that he was influenced by sympathy for the burdens of the poor when he had that bill passed? The unfortunate laboring men with whom he has so deeply sympathized by taking one-half of the price paid for their being maimed for life will answer the question for us.

The public will recall without difficulty the violent war which was kept up in our city for several years between the Bridge and the Street Car Companies. The Street Car Com. pany employed Mr. Goebel as attorney in me of their cases in court. The war between these contending corporations was carried up to Frankfort. The Bridge Company, pending hostilities, influenced the passage of an act through the House which reduced the rate for ear service between Cincinnati and Covington to a five-cent cash fare. Senator Goepassed his bill reducing toils upon the Suspen- of Covington, answer the questions for him, the House it was promptly taken up by the city's representatives, passed and became the law which is now before the Supreme Court of the United States.

To show how dearly our estcemed Senator loved the people, and how much be was interested in getting cheap fares for the laboring man, it is only necessary to state that the street car reduction was side-tracked in the Senate and never permitted to become a law. The laboring man, whose friend he professes to be, must try and reconcile this inconsistency in their self-constituted champion, for we are unable to do so. In our opinion it looks something like a case of "stealing the livery of heaven to serve the devil in."

Pugh has knelt and worshipped at the Goebel shrine. He has for years danced respectful attendance upon the Senator, executing his serve him.
